

**Hosted Telephone Service
Feature-rich, Flexible, Affordable**

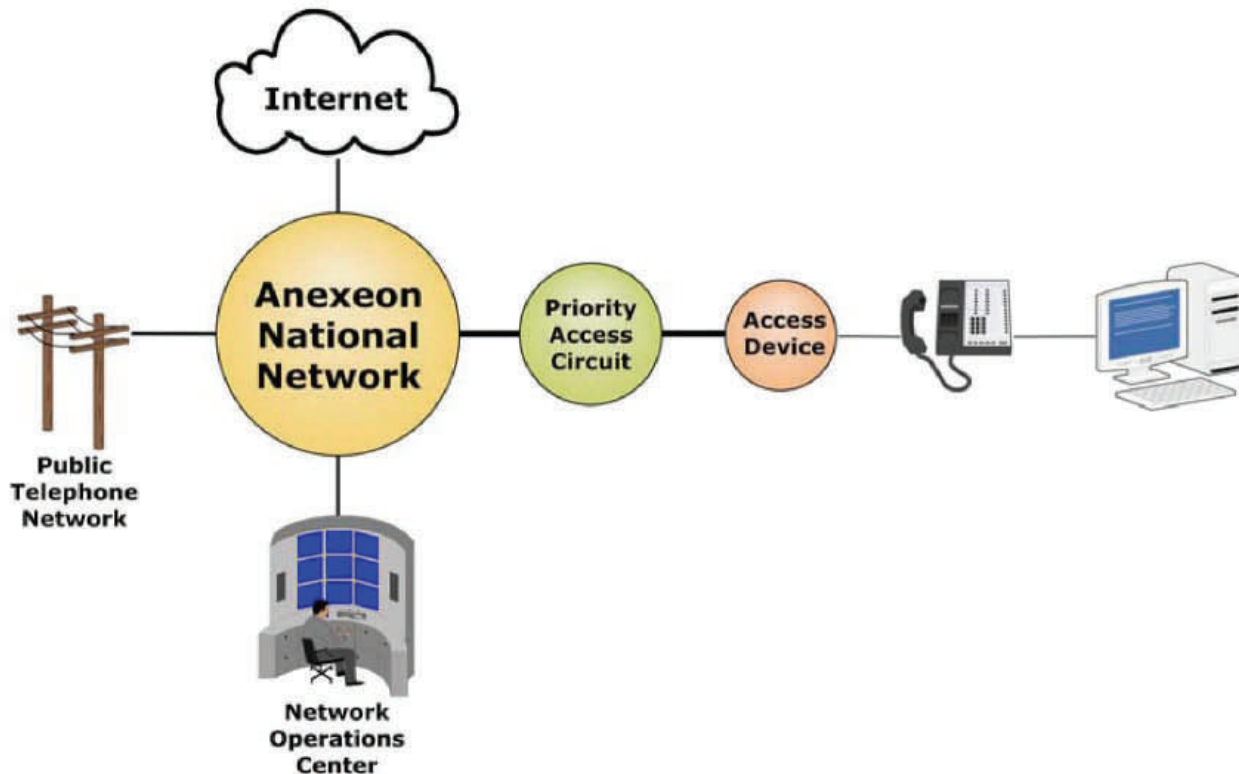

The Top Line

A feature-rich IP PBX solution for small to medium sized businesses looking to enjoy savings and productivity benefits of VoIP without the risk of obsolescence and heavy investments in capital equipment.

Make Your Move To IP Communications Inexpensive And Uncomplicated

With our Hosted IP PBX solution, you get a dedicated call plan with the ability to choose from three feature set options: Dial tone, Standard or Premium. The feature sets, which vary depending upon the type chosen, include personal services and mobility, voice mail messaging and web-based call management tools. This allows you to:

- match feature sets to your specific and future needs-from the most feature-demanding requirements to basic dial tone services, each set with its own dedicated line
- work confidently with a provider that has the experience, the knowledge and the commitment to customer service and support that you need

Make Your Move. Call us at (702) 938-0365 to find out more about hosted IP PBX services, as well as the entire portfolio of Anexeon services.
