***It just makes good business sense:***

Sometimes instructor-led training, while extremely valuable, can be difficult to coordinate due to locations, time schedules and staff workload pressures. KnowIT! Online allows you and your staff to set their own learning schedules - at a price you can afford. Our pricing was designed with our WatchIT! Customers in mind—you are loyal to us, so we intend to be loyal to you by helping you save money in every way!

***Simple pricing model:***

Each “account” is good for **one user** for an **entire year** of training—they can take one course—or **one hundred!**

Accounts 1-25	\$119 each
Accounts 26-50	\$99 each
Accounts 51-100	\$89 each
Accounts 101 and up	\$79 each
Pre-assessment testing account	\$29 each - lasts for one full week can be converted to full account for the additional \$90

**For example:**

You have 55 people that you would like to enroll in training this year.

Your price would be:

- 25 people x \$119 = \$2975.00
- 25 people x \$99 = \$2475.00
- 5 people x \$89 = \$445.00

**Grand total cost for 55 people able to train in an unlimited number of courses all year = \$5895.00!**

Typical training companies charge \$75 - \$200 for a single one day class - per person!
